Proctor silex coffee maker durable 12 cup instructions

With Easy-Touch programming, you can easily set the Proctor Silex® 12 Cup Programmable Coffee Maker up to 24 hours ahead so hot coffee is ready in the morning when you wake up. It makes up to 12 cups of delicious fresh-brewed coffee at the time you select so coffee is ready when you are. With auto shutoff, the programmable coffee maker automatically shuts off after 2 hours for peace of mind. The coffee maker includes a small batch setting that lets you make perfect coffee when making 1-4 cups. It's great for times when you don't want to brew as much coffee. Get your first cup fast with Auto Pause & Pour. It stops the flow of coffee when you lift the carafe so you can pour a cup of coffee mid-brew without making a mess. The coffee maker is easy to clean with a durable, borosilicate glass carafe and Lift & Clean brew basket that are both dishwasher safe. The nonstick warming plate is also easy to wipe clean. It keeps coffee warm in the carafe until you're ready for your next cup. This durable coffee maker is backed by Proctor Silex with a lengthy 3 year limited warranty. Wake-up ready coffee with easy-touch programming Use Easy-Touch programming to set the 12 cup coffee maker up to 24 hours ahead so hot coffee is ready in the morning when you wake up. It makes up to 12 cups of delicious coffee at the time you select. Automatic shutoff for peace of mind The programmable coffee maker automatically turns off after 2 hours. There's no need to worry about whether or not you've left it on. Easy to clean The drip coffee maker has a durable, borosilicate glass carafe and Lift & Clean brew basket that are both dishwasher safe. And the nonstick warming plate is easy to wipe clean. Make smaller servings with small batch setting The coffee maker has a small batch setting that's great for times when you want less coffee. Use this setting to make perfect coffee when making 1-4 cups of coffee. Get your first cup fast Auto Pause & Pour lets you sneak a cup of coffee mid-brew without making a mess. The coffee flow stops when you lift the carafe to pour a cup of coffee. Photo Courtesy: Pixabay Many coffee drinkers agree that coffee beans ground right before brewing bring out the fresh flavor in a morning cup of coffee. You don't have to be a barista to get this kind of freshness either. With the right coffee grinder, you can make your own at a fraction of the cost of a purchase from the corner coffee shop. There are hundreds of different coffee grinders on the market, but these top models stand out from the rest. Check out why coffee drinkers from all over love these models. MORE FROM CONSUMERSEARCH.COM (Carlo's Lines/flickr) Adding two 1/3 cups gives you 2/3 cups. In decimals, 1/3 of a cup is .33 cups, so .33 cups plus .33 cups equals .66 cups. The United States customary cup holds 8 fluid ounces. Since 1/3 or .33 of 8 ounces is 2.64 ounces, 2/3 U.S. fluid cups or 1/3 U.S. cups plus 1/3 U.S. cups is equivalent to 5.28 U.S. fluid ounces. The British imperial cup holds 10 imperial ounces. This means that 1/3 or .33 of 10 ounces is 3.3 ounces. Thus, 1/3 imperial cups plus 1/3 imperial cups is 6.6 ounces.What Are Fractions? Fractions are defined as a part of a whole, written with a top number called a numerator, and a bottom number is called the denominator. A division line called a vinculum separates the numerator and denominator in fractions. Fractions are often presented with a numerator of a lower number than the denominator. However, there are fractions with numerators that are greater than their denominators. Such fractions are called "improper fractions." Improper fractions may be converted into mixed fractions, which is a whole number accompanied by a fraction, such as in 1 1/2. Adding Fractions Adding fractions is easy. With fractions that have an identical denominators such as in 1/3 + 1/3, add the numerators and retain the denominator. Thus 1/3 + 1/3 = 2/3. In fractions that don't have an identical denominator, such as in 1/2 + 1/3, multiply the numerators with the denominators of the other fraction, and then add the results which will be your new numerator. Since multiplying 1x2 gives you 2 and 1x3 gives you 3, adding 2+3 will give you 5, which becomes your new numerator. Next, multiply the denominators of the two fractions, and the result will be your new denominator. Thus, 1/2 + 1/3 equals 5/6. Converting Fractions to Decimals Fractions resemble division formulas because they represent division. In other words, 1/3 means 1÷3, which gives you 0.33. 1/3 cups, therefore, is equivalent to .33 cups and 0.33 cups plus .33 cups equals .66 cups. Cups in U.S. Customary and British Imperial Systems Both the U.S. customary and British Imperial system units of measurements are based on the old English system. While the units measurements for length, weight, distance, and area are identical in both the U.S. customary and imperial systems, their units for volume such as fluid ounces, cups, pints, quarts, and gallons differ. Using the metric system for volume as reference, a U.S. fluid ounce is equivalent to 29.573 milliliters (mL). Since a U.S. fluid cup holds 8 fluid ounces, one U.S. cup holds 236.48 mL — 1/3 or .33 of which is 78.04 mL. This makes 2/3 of a cup equivalent to 156.07. The imperial fluid ounce holds 28.413 ml. Since 1 imperial cup holds 10 imperial fluid ounce, 1 imperial cup is equivalent to 284.13 mL. Using the same calculations as above, 1/3 of an imperial cup is 93.76 mL, and 2/3 of an imperial cup is equivalent to 187.52 mL. The Metric System Cup Although seldom used, the metric system also has its own version of the cup. One metric system cup measures 250 mL. One-third of a metric system cup is 82.5 mL. Therefore, 1/3 metric system cup plus 1/3 metric system cup equals 2/3 metric system cups, which is 165 mL. MORE FROM REFERENCE.COM 64012602 10/12 CoffeemakersCafetièresCafetières Le invitamos a leer cuidadosamente este instructivo antes de usar su aparato. Read before use. To view Use and Care guides, recipes, and tips, please visit: proctorsilex.com USA: 1.800.851.8900 Pour voir les manuels d'utilisation et d'entretien, les recettes et les conseils, veuillez consulter le site : proctorsilex.ca Canada: 1.800.267.2826 Para ver guías de Uso y Cuidado, recetas y consejos, por favor visite: proctorsilex.com.mx México: 01.800.71.16.10 IMPORTANT SAFEGUARDS When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following: 1. Read all instructions. 2. Do not touch hot surfaces. Use handles or knobs. Care must be taken, as burns can occur from touching hot parts or from spilled, hot liquid. 3. To protect against electric shock, do not place cord, plug, or coffeemaker in water or other liquid. 4. Close supervision is necessary when any appliance is used by or near children. 5. Unplug from outlet when either the coffeemaker or clock is not in use and before cleaning. Allow to cool before putting on or taking off parts and before cleaning the appliance. 6. Coffeemaker must be operated on a flat surface away from the edge of counter to prevent accidental tipping. 7. Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or is dropped or damaged in any manner. Call our toll-free customer service number for information on examination, repair, or adjustment. 8. The use of accessory attachments not recommended by the appliance manufacturer may cause injuries. 9. Do not use outdoors. 10. Do not let cord hang over edge of table or counter or touch hot surfaces, including stove. 11. The carafe is designed for use with this coffeemaker. It must never be used on a range top or in a microwave oven. 12. Do not set a hot carafe on a wet or cold surface. 13. Do not use a cracked carafe or one with loose or weakened handle. 14. Do not clean carafe with cleansers, steel wool pads, or other abrasive materials. 15. Be certain carafe lid is securely in place before pouring coffee; do not use force when placing lid on carafe. 16. Do not place coffeemaker on or near a hot gas or electric burner or in a heated oven. 17. Disconnect coffeemaker, turn controls to OFF and then remove plug from wall outlet. 18. WARNING: To reduce the risk of fire or electric shock, do not remove the bottom cover. No user-serviceable parts are inside. Repair should be done by authorized service personnel only. 19. Do not use appliance for other than intended use. SAVE THESE INSTRUCTIONS Other Consumer Safety Information This appliance is intended for household use only.WARNING! Shock Hazard: This appliance has a polarized plug (one wide blade) that reduces the risk of electric shock. The plug fits only one way into a polarized outlet. Do not defeat the safety purpose of the plug by modifying the plug in any way or by using an adapter. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, have an electrician replace the outlet. The length of the cord used on this appliance was selected to reduce the hazards of becoming tangled in or tripping over a longer cord. If a longer cord is necessary, an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the appliance. Care must be taken to arrange the extension cord so that it will not drape over the countertop or tabletop where it can be pulled on by children or accidentally tripped over. Parts and features 1. Lid 2. Filter Basket 3. Filter Basket Well 4. Carafe 5. Keep-Hot Plate 6. Water Window 7. Reservoir NOTE: Picture references major components for all coffeemakers covered by these instructions. How to make coffee Digital clock timer (on select models) This warranty applies to products purchased and used in the U.S. and Canada. This is the only express warranty for this product and is in lieu of any other warranty or condition. This product is warranted to be free from defects in material and workmanship for a period of one (1) year from the date of original purchase. During this period, your exclusive remedy is repair or replacement of this product or any component found to be defective, at our option; however, you are responsible for all costs associated with returning the product to us and our returning a product or component under this warranty to you. If the product or component is no longer available, we will replace with a similar one of equal or greater value.This warranty does not cover glass, filters, wear from normal use, use not in conformity with the printed directions, or damage to the product resulting from accident, alteration, abuse, or misuse. This warranty extends only to the original consumer purchaser or gift recipient. Keep the original sales receipt, as proof of purchase is required to make a warranty claim. This warranty is void if the product is used for other than single-family household use or subjected to any voltage and waveform other than as specified on the rating label (e.g., 120V ~ 60 Hz). We exclude all claims for special, incidental, and consequential damages caused by breach of express or implied warranty. All liability is limited to the amount of the purchase price. Every implied warranty, including any statutory warranty or condition of merchantability or fitness for a particular purpose, is disclaimed except to the extent prohibited by law, in which case such warranty or condition is limited to the duration of this written warranty. This warranty gives you specific legal rights. You may have other legal rights that vary depending on where you live. Some states or provinces do not allow limitations on implied warranties or special, incidental, or consequential damages, so the foregoing limitations may not apply to you.To make a warranty claim, do not return this appliance to the store. Please call 1.800.851.8900 in the U.S. or 1.800.267.2826 in Canada or visit proctorsilex.com in the U.S. or proctorsilex.ca in Canada. For faster service, locate the model, type, and series numbers on your appliance. Limited warranty 19. N'utiliser cet appareil qu'aux fins pour lesquelles il a été conçu. CONSERVER CES INSTRUCTIONS PRÉCAUTIONS IMPORTANTES Pièces et caractéristiques REMARQUE : Les illustrations montrent les composants importantes de toutes les cafetières relatives aux présentes instructions. Autres consignes de sécurité pour le consommateur Cet appareil est conçu pour une utilisation domestique seulement.AVERTISSEMENT : Risque d'électrocution : Cet appareil électroménager possède une fiche polarisée (une broche large) qui réduit le risque d'électrocution. Cette fiche n'entre que dans un seul sens dans une prise polarisée. Ne contrearez pas l'objectif sécuritaire de cette fiche en la modifiant de quelque manière que ce soit ou en utilisant un adaptateur. Si vous ne pouvez pas insérer complètement la fiche dans la prise, inversez la fiche. Si elle refuse toujours de s'insérer, faire remplacer la prise par un électricien.La longueur du cordon installé sur cet appareil a été sélectionnée afin de réduire les risques d'enchevêtrement ou de faux pas causés par un fil trop long. L'utilisation d'une rallonge approuvée est permise si le cordon est trop court. Les caractéristiques électriques de la rallonge doivent être équivalentes ou supérieures aux caractéristiques de l'appareil. Prendre toutes les précautions nécessaires pour installer la rallonge de manière à ne pas la faire courir sur le comptoir ou sur une table pour éviter qu'un enfant ne tire sur le cordon ou trébuche accidentellement. 9. For clock models: Press ON/OFF button to start. An illuminated red light on the ON/OFF button indicates coffeemaker is on. Press ON/OFF again to turn off and unplug when finished. NOTE: For clock models, see "How to set and use automatic brew." For nonclock models with automatic shutoff: Press and release ON/OFF switch. Red light illuminates to indicate the coffeemaker is on. Press and release switch again to turn coffeemaker off and unplug when finished. To Set Clock:1. Plug in coffeemaker. Numbers on clock will flash until you set time of day. 2. To set time of day, press H (hour) button to set current hour. AM or PM will be displayed. 3. Press M (minute) button until you reach the current time. How to set and use automatic brew 1. Make sure clock is set for correct time of day.2. Fill coffeemaker with desired amount of water and coffee. Place carafe with lid on Keep-Hot Plate. Close lid. 3. While holding PROG (program) button, press H and M buttons until desired brewing time is reached. 4. Once desired brewing time has been reached, release PROG and current time is displayed. 5. Press AUTO to set coffeemaker to come on automatically at the desired time. 6. An illuminated green light on the AUTO button indicates that the brew cycle will begin at the set time. 7. Press AUTO again to cancel automatic brew. Features Pause 'N ServeThis feature allows you to pour a cup of coffee before the entire brew cycle has completed. By removing the carafe, the flow of coffee will temporarily stop. The flow of coffee will resume when carafe is returned to the Keep-Hot Plate. Do not remove carafe more than 20 seconds or brew basket may overflow.Brew Strength Selector (on select models)This feature allows you to control the strength/flavor of the coffee. To select from mild to strong flavor, rotate the Brew Strength Selector Knob, located on top of the coffeemaker, to desired strength.Permanent Filter (on select models)The permanent filter takes the place of disposable paper filters. Place the permanent filter in the brew basket with the wave section facing the rear of coffeemaker. Rinse the permanent filter in hot water before first use. Clean the permanent filter under hot running water and let dry. Permanent filter can be placed in top rack of automatic dishwasher.Automatic Shutoff (on select models)The Automatic Shutoff feature shuts off the Keep-Hot Plate two hours after brew cycle begins. Always turn coffeemaker OFF and unplug when finished. To maintain performance of coffeemaker, clean once a month.To Clean the Inside of the Coffeemaker:1. Place empty carafe on Keep-Hot Plate. Close lid.2. Pour one pint of plain white vinegar into the reservoir.3. Plug unit into electrical outlet and turn ON.4. After 30 seconds turn OFF.5. Wait 30 minutes to allow the vinegar to clean. Then turn ON again. When the brew cycle is finished, turn OFF. 6. Empty carafe and rinse. Pour one carafe of cold tap water into the reservoir. Place carafe on Keep-Hot Plate. Close lid. 7. Turn ON. When the brew cycle is finished, empty the carafe. Repeat this process with one more carafe of cold tap water. 8. Turn OFF when complete.9. Wash carafe and brew basket before making a beverage. To Clean Carafe and Filter Basket:Wash carafe by hand in hot, soapy water or in top rack of dishwasher. To remove carafe lid, push hinge part of lid to one side and then gently but firmly twist lid. The pin will release from hinge. To replace lid, put one side of lid hinge on one of pins and then snap onto other pin.To remove brew basket, open lid and lift straight up. Brew basket may be washed by hand or in top rack of dishwasher. Care and cleaning Lorsque vous utilisez des appareils électriques, vous devez toujours prendre des précautions élémentaires afin de réduire les risques d'incendie, de choc électrique et/ou de blessures corporelles. Voici quelques instructions à suivre : 1. Lire toutes les instructions. 2. Ne toucher pas aux surfaces chaudes. Utiliser les poignées ou les boutons. Vous devez être très prudent car vous pourriez vous brûler en touchant des pièces chaudes ou en renversant un liquide chaud. 3. Afin de vous prémunir contre les chocs électriques, ne plonger pas le cordon d'alimentation, la fiche ou la cafetière dans l'eau ou tout autre liquide. 4. Surveiller attentivement les enfants lorsque ceux-ci utilisent l'appareil ou lorsqu'il est utilisé à proximité d'eux. 5. Débrancher l'appareil de la prise de courant lorsque vous ne vous servez pas de la cafetière ou de l'horloge ou avant de le nettoyer. Laisser-le refroidir avant d'enlever ou de remettre en place des pièces ou de nettoyer l'appareil. 6. Lorsque la cafetière est en marche, elle doit toujours se trouver sur une surface plate et loin du bord du comptoir pour éviter tout contact accidentel qui pourrait la renverser. 7. Ne faites pas fonctionner un appareil avec un cordon ou une fiche endommagé(e), ou lorsque l'appareil ne fonctionne pas bien ou a été échappé ou endommagé d'une manière quelconque. Appeler notre numéro sans frais de service à la clientèle pour des renseignements concernant l'examen, la réparation ou l'ajustement. 8. L'utilisation d'accessoires non recommandés par le fabricant d'électroménagers peut causer des blessures. 9. N'utiliser pas la cafetière à l'extérieur.10. Ne laisser pas le cordon pendre au bord d'une table ou d'un comptoir ou entrer en contact avec une surface chaude, y compris la cuisinière. 11. La verseuse est conçue pour être utilisée avec cette cafetière. Elle ne doit jamais être utilisée sur la cuisinière ou dans un four à micro-ondes. 12. Ne déposer pas une verseuse chaude sur une surface froide ou humide. 13. N'utiliser pas une verseuse fêlée ou dont la poignée est desserrée.14. Ne nettoyer pas la verseuse avec des nettoyeurs, des tampons de laine d'acier ou d'autres matériaux abrasifs. 15. Assurez-vous que le couvercle est bien fermé durant la préparation du café et lorsque vous le versez ; ne forcer pas le couvercle lorsque vous le posez sur la verseuse. 16. Ne placer pas la cafetière près d'un brûleur électrique ou à gaz, chaud ou dans un four chaud. 17. Pour débrancher la cafetière, placer l'interrupteur à la position ARRÊT (OFF), puis enlever la fiche de la prise de courant. 18. AVERTISSEMENT : Afin de diminuer le risque d'incendie ou de choc électrique, n'enlever pas le couvercle du dessous. Il ne s'y trouve aucune pièce réparable. Toute réparation ne devrait être effectuée que par un technicien autorisé. 1. Couvercle2. Panier-filtre3. Puits du panier-filtre4. Verseuse 5. Plaque chauffante6. Fenêtre du niveau d'eau7. Réservoir Préparation du café Risque de brûlure. Pour éviter le débordement de café chaud du panier-filtre • Lors de l'utilisation d'un café décaféiné, ne dépasser pas les quantités recommandées par le fabricant de café. • Appuyer fermement sur le couvercle pour s'assurer que celui-ci est bien fermé. Si le panier-filtre déborde, débrancher la cafetière et laisser refroidir le contenu du panier-filtre avant de retirer le panier-filtre.1. Avant l'utilisation initiale, nettoyer la cafetière en suivant les étapes de la section « Pour nettoyer l'intérieur ». Utiliser de l'eau claire ou du vinaigre. Dans le cas du modèle à horloge, lire la section « Horloge numérique ». 2. Placer le panier-filtre dans le puits du panier-filtre. Insérer le repose-pouce dans l'ouverture gauche. S'assurer que le panier-filtre est bien en place. 3. Placer un filtre à café de type « petit gâteau » dans le panier-filtre. Un filtre permanent peut aussi être utilisé avec ce modèle. 4. Pour chaque tasse de café à préparer, mettre une mesure rase (fournie avec la cafetière) ou une cuiller à soupe rase de café dans le filtre. 5. Mettre la quantité désirée d'eau froide du robinet dans la verseuse.6. Soulever le couvercle et verser l'eau de la verseuse dans le réservoir. REMARQUE : Ne pas remplir au-delà de la marque de 12 tasses (54 onces/3 L). 7. Placer la verseuse munie de son couvercle sur la plaque chauffante.8. Appuyer fermement sur le couvercle pour s'assurer qu'il est bien fermé.9. Pour les modèles à interrupteur : Mettre l'interrupteur à ON (marche). Un interrupteur allumé indique que la cafetière est en marche. Mettre l'interrupteur à OFF (arrêt) et débrancher la cafetière après avoir terminé.Pour les modèles à horloge : Appuyer sur ON/OFF pour la mise en marche. Un témoin rouge allumé à la droite du bouton ON/OFF indique que la cafetière est en marche. Appuyer de nouveau sur ON/OFF pour éteindre la cafetière, puis la débrancher après avoir terminé. REMARQUE : Pour les modèles à horloge, voir « Réglage et utilisation de l'infusion automatique ». Pour les modèles sans horloge avec arrêt automatique : Enfoncer puis relâcher le bouton ON/OFF. Un témoin rouge allumer indique que la cafetière est en marche. Appuyer de nouveau sur ON/OFF pour éteindre la cafetière, puis débrancher-la après avoir terminé. w AVERTISSEMENT This symbol reminds you that glass is fragile and can break which could result in personal injury. This symbol alerts you to the potential danger for personal injury if you fail to read and follow these safety precautions. Ce pictogramme vous rappelle que le verre est fragile et qu'il peut se briser et provoquer des blessures. Ce pictogramme vous informe d'un risque possible de blessure si vous ne lisez pas et ne respectez pas ces mesures de sécurité. How to make coffee Burn Hazard. To avoid hot coffee overflowing from the filter basket: • When using decaffeinated coffee, do not exceed the coffee manufacturer's recommended serving amount. • Press firmly on lid to ensure the lid is completely closed.If filter basket overflow occurs, unplug coffeemaker and allow coffee in filter basket to cool before removing filter basket.1. Before first use, clean coffeemaker by following steps listed in "To Clean the Inside of the Coffeemaker." Use either clear water or vinegar. If clock model, read Digital Clock Timer section. 2. Place brew basket in brew basket well. Insert thumb handle in the left opening. Ensure brew basket is fully seated. 3. Place a cupcake-style paper filter in brew basket. A permanent filter may also be used. 4. For each cup of coffee being made, place one level scoop (provided with coffeemaker) or one level tablespoon of coffee into filter. 5. Fill carafe with the desired amount of cold tap water. 6. Lift lid and pour water from carafe into reservoir. NOTE: Do not fill past the 12-cup mark (54 ounces). 7. Place carafe, with carafe lid attached, on Keep-Hot Plate.8. Close lid. Press firmly on lid to ensure that it is completely closed.9. For switch models: Turn switch to ON. A lighted switch indicates coffeemaker is on. Turn switch to OFF and unplug when finished. w WARNING FIG. 1 This manual is related to the following products:
